SUPPLIED WITH THE BEST THE MARK

LIVERY.

The dweller in our large cities often sees carriages in the streets and parks, that are adorned by men in various grotesque costumes, known as livery. The peculiar function of these persons seems to be to impart a certain amount of aristocracy to the occupants of the inside of the vehicle. In European countries these costumes are traditional, they have come down to the house they represent through a long line of ancestry, and bring up memories of deeds of valor on battle fields, or victory in intellectual contests. Centuries of custom has sanctioned their use and made it appropriate. They belong to the social and governmental structure, and violate no sentiment of refined taste. But in our own country the case is entirely different. Here livery only represents a certain number of dollars or credit, the coachman in enormous buttons and cockade on his hat, may be vastly the superior in morals, education and polite culture to the man or woman who rides inside. Some months ago during a visit to San Francisco, we asked one day whose carriage is that? as a coupe with driver and footman in conspicuous livery passed. When the information was given we happened to know that the person who rode in this coupe, and aped the ways of knightly aristocracy, was born and reared in a very humble home on a western farm, educated in a log school house, and was utterly without refinement of taste or deportment. Such doubtless would be the history of most of these would-be aristocrats. Speaking of one of these parvenues, a friend once said to us: "I knew that man when he sold poor whiskey for four bits a drink, over a symphony log." Livery in America represents to a certain extent that the owner of the turnout is rich, and it represents also the snobbish, ignorance and vulgarity of the owner. It is a standing notice to every beholder that the owner is ashamed of republican ideas and institutions, ashamed of his or her honest, hard working ancestry and would deny the homely hand of father or mother, browned with toil. Livery in the United States is a cloak for ignorant vulgarity, and an open insult to every lover of the gospel of the universal equality at birth of all men. It belongs to an age when between master and servant there was a great gulf no man could cross, and it ought to be left with the worm eaten oppressions and ideas that have sunk into mental oblivion.

IS IT A FREE THING?

The Commissioners have ordered their Clerk to advertise for bids for the care of the indigent sick, which in one view and under proper restrictions, is right, but does this mean that the professional care of the unfortunate poor is to be opened to carpenters, blacksmiths, druggists and bums? Does the Board require that the bidders shall be qualified for the discharge of these important duties? Or is it a free thing open to all sorts of persons? The public sentiment of most communities would revolt at the idea of any one but a physician who has pursued a regular course of medical study, and has graduated from some honorable medical school. It is bad enough to be poor and sick without adding the dangers of unskillful treatment. Is not this matter worthy of attention?

CORRECTION.

The JOURNAL means to do just right by friend and foe, so we make this correction. In a recent editorial we censured the present Board of Commissioners for the Flannagan business. It seems that Flannagan's commission was issued to him by the retiring Board, that that Board acted on and approved his bond, and that Flannagan probably now has his certificate of election with the oath of office attached, in his pocket. We find that there is no law compelling officials to file their official oath with anybody, and that there are now but two of these documents on file with the Clerk, one of these two being his own. The law certainly is very defective but the Commissioners are not to blame for that.

JESS SO!

Already the names of candidates for the Governorship are being mentioned by both political parties. The Democrats ought to be able to win the next State election. They will lose it, however, if they are foolish enough to nominate a poor ticket. The "boys," and the candidates of the "boys," should be made to take a back seat. No saloon statesmen need be allowed to get control of the party machinery if victory is wanted.—Evening Chronicle.

That would do for some of our Republican statesmen to read.

The New Year opens favorably in California. Grass and grain have got a good start. Feed is becoming plentiful, and stock raisers are satisfied.

NEWS OF THE MORNING.

Sarah Bernhardt receives \$100,000 for her engagement in St. Petersburg. Attorney-General Brewster assumed charge of the Department of Justice Tuesday.

A committee consisting of Bagnaut Simon, Baron Nathaniel Rothschild and Messrs. Cope and Worth is collecting information regarding the persecution of the Jews in Russia and Poland.

James Isom died last Sunday after having attained the age of 102 years. His life was eventful. During the war of 1812 he passed his time in a cave in the mountains making saltpetre for the manufacture of gunpowder for the American army.

The New York Times' Washington special, reviewing the new Cabinet probabilities, thinks Sargent will have the Interior Department and accept a foreign mission, and that Rann, representing Illinois, would then be a candidate for the War portfolio.

Arrests have been made of the persons believed to be the ravishers and murderers of the Gibbon children. The arrests was brought about by the confession of one of the number. All live in Ashland and two are married men. They are in Catlettsburg Jail. Lynching is expected.

Neither branch of the New York Legislature was organized by the Democrats to-day. It is thought that an amiable settlement will be arranged this afternoon, and that when both branches meet to-morrow they will be organized by the Democrats. In the Senate anti-monopoly resolutions gave rise to considerable debate. The resolutions were finally adopted—a Tammany victory.

Tuesday morning John Henry Bassett, a deaf and dumb man, visited Mr. Baker, who keeps a little stopping place in Telegraph Canyon, north of Temescal. Bassett went to settle an account which he owed Baker, and when the latter turned to look for the papers Bassett drew a pistol and shot him in the back of the neck, a little to the right of the spine, the ball coming out through the mouth. The wounded man was taken to Oakland, where he lies in a precarious condition. The cause of the assault is unknown.

The Senate Contingent Fund Investigating Committee reassembled day before yesterday. W. F. Brown, foreman of the Treasury Department cabinet workshop, presented memoranda in which, it is said, he gave the dates, the time occupied and the character of the work done by him upon Secretary Sherman's new house and stable, and also showing that this work, or some of it, had been charged to the different bureaus of the Department.

Congressman Barr of Pennsylvania yesterday informed a sub-committee of the Harrisburg Ministerial Association who called on him in relation to affairs in Utah, that in his judgment no measure could be adopted too radical for the oppression of polygamy. The Ministerial Association of Harrisburg has drawn up a petition in the nature of an address, in which the people of Pennsylvania are requested to join the clergy in demanding the suppression of polygamy by Congressional interference. It is claimed that this is the first organized clerical body to secure the aid of the government to rid the country of polygamy.

The Sutor Tunnel.

The following work was done in the Sutor tunnel during the week ending December 29: The usual repairs were made in the main tunnel and north lateral. In the south lateral 84 feet were driven in porphyry. The usual repairs were made, as also in shaft No. 1. The upraise in prospect drift No. 4 is 29 feet above the caps of the drift. It follows the vein in a distance about one foot from the west clay. About three feet from the west clay there is a streak of ore about 20 to 24 inches wide, which extends through the upraise. The rest of the quartz in this upraise is of a promising character, but assays low. In reuniting the drift between the upraise and the south lateral with heavier timbers we cut out about two feet of the roof. At this point the ore streak shows a width of about 30 inches and looks better than at any other point. The daily flow of water was decreased to 4,564,782 gallons. Temperatures observed have ranged from 46 degrees at main tunnel entrance (where the water is 120 degrees) to 88 degrees at shaft No. 3 and 103 degrees at the Julia connection.

A Gilroy paper notes that indications of the presence of petroleum have been found at a point within three miles of that town, and have been traced for ten miles. The belt is a mile wide. The discovery is considered important.

There is a strong rumor in Washington that Hon. J. Ambler Smith, of Virginia will be appointed Solicitor of the Treasury. Mr. Smith was a Representative from Virginia in the Forty-third Congress.

"What is wine made of?" asked an Austin teacher of Johnny Fizzlepop, who said he didn't know. "You ought to know, for last Summer I saw you climbing over a fence to get into a grape arbor. What did you get there?" "A licking."

It is announced on the best authority that President Arthur has finally decided to fill the vacancy caused by the resignation of Governor Fremont of Arizona by the appointment of F. A. Tritle of Nevada to the position. H. M. Van Arman of Oakland is to be Secretary of the Territory.

The London Engineer states that the South Metropolitan Company of London furnishes gas to its patrons at a trifle over 70 cents per thousand cubic feet; and the confident anticipation is expressed that in a short time 16-candle gas will be furnished in London at 50 cents per thousand cubic feet.

The Denver Republican's Silverton special says: On Saturday Edward F. Ryan, Michael Ryan and Richard Adkins, employed on the Paradise Tunnel, ten miles from here, were buried 100 feet deep in a snowslide. Parties left Silverton this morning to recover the bodies.

The latest rumor from New York is that Henry Villard will build a costly residence on Fifth avenue, which is expected to eclipse the prospective palace of Sidney Dillon. Next to being a bank cashier, with religious connections, the surest and speediest road to wealth is through the presidency of a railroad.

A Village Captured By Bees.

The village of West Fairview, Cumberland county, Pa., has been afflicted with a plague of bees. Two of its citizens keep some 130 bee hives, and as bad weather made other food scarce the interesting insect invaded the stores and houses in quest of sweets. Half a bushel of them swarmed in one man's kitchen, of which they remained sole tenants for a week. In that house, on their account, all fruit canning and preserving had to be done at night, and for many days all the family had to climb out and in the windows, the bees lying siege to the doors. In addition to this, whole orchards of fruit and arbors of grapes were devoured by the bees. Dozens of persons were badly stung while passing along the streets, and such a reign of terror was established that recourse has been had to the courts for prevention of its recurrence.

Mark Twain was present at the recent dinner given in Philadelphia on "Pilgrims' Day." He closes a witty speech with these solid words:

However, chaff and nonsense aside, I think and honor and appreciate your Pilgrim stock as much as you do yourselves, perhaps. And I endorse and adopt a sentiment uttered by a grandfather of mine, once—a man of sturdy opinions, of sincere make of mind, and not given to flattery. He said: "People may talk as they like about that Pilgrim stock, but after all's said and done, it would be pretty hard to improve on those people; and as for me, I don't mind coming out flat-footed and saying there ain't any way to improve on them—except having them born in Missouri!"

A duel was recently fought in Texas between Alexander Shott and John Nott. It was rumored that Nott was shot and Shott was not. (If so it was better to be Shott than Nott.) But it was afterward proved that the shot Shott shot at Nott shot Shott by accident, and the shot Nott shot at Shott shot past, and so shot him not. Thus the affair resolved itself into its original elements, and Shott was shot and Nott was not.—Ex.

A WONDERFUL DWELLING.

The House That is Occupied by a Couple of Ohio Giants.

(Cincinnati Enquirer.)

Captain Martin Van Buren Bates, who lives on a farm near Seville, O., is 7 feet, 11½ inches high, and weighs 478 pounds. Mrs. Bates is 7 feet, 11 inches high, and weighs 413 pounds. It is a difficult matter to convey an adequate idea of the proportions of such a dwelling as the one occupied by the Ohio giants. A door that is six feet, six inches high is a large-sized opening in the side of a house—that is a dwelling house, not a cathedral. But the doors in the domicile of the Bates giants are ten feet high, and the knobs are nearly as high as the reporter's head. The house was built by Captain Bates in 1876, and is elegantly furnished. In the main building on the ground floor are, besides the spacious hall, the bed-chamber of the giants, a sitting-room and a parlor. The couch upon which the big couple sleep was made especially for them, and is a curiosity to look at. It is extensive enough to give the great people room to stretch in, and it looks as big as an ordinary-sized floor. It is really ten feet long, wide in proportion and about twice as high as a common bed. The magnificent dressing case is also a huge affair, with a glass upon it nearly as big as the side of a house. In the sitting-room is a piano of ordinary size itself, but it is mounted on blocks two feet high, so that the instrument is away up in the air out of the reach of common folks. There are two rocking chairs in this room that are so big that the reporter had to climb up into one of them the same as an infant would clamber up into a "giant chair." It is very expensive for the giants to live as they have to pay such an exorbitant price for everything they wear. For instance, it costs the Captain \$30 a pair for boots. It is a most astonishing sight to come across the two giants out for a drive. City folks who have seen the ponderous wagons with wheels reaching to the second story of the house, used to haul stones weighing tons and tons, can form an idea of the vehicle used. It is pulled by six stout Norman horses and it is enough to make a man think he has got 'em, sure, to suddenly meet such a spectacle on the road out in the country. Passing wagons have to let the rails down and drive into the adjoining fields until the giants go by.

Jacobs the Tailor.

The apparel does not always proclaim the man, but it unquestionably proclaims the tailor. A man in badly fitting clothes may be a great man, but he is a short sighted man else he would have gone to Jacobs and made himself solid with the public by getting some well cut clothes.

RICH AND RARE.

In selecting jewelry it is all important that the articles chosen be of the latest styles and neatest designs, and so we would advised all who contemplate making gifts in that line during the holidays to call at Wm. Goeggel's store and see the new and beautiful selections recently received by him. The magnificent display of solid gold jewelry set with precious stones, and of silverware, together with the attractive line of rolled-plate goods, at prices to suit the purses of all, is conclusive evidence of his excellent taste and determination to afford all Renoites an opportunity to purchase the finest articles at home, at reasonable prices. Indeed, his facilities are such as to place him in advance of all dealers in his line, and to enable him to sell for less than anyone else in Reno.

TOWN AND COUNTY.

The Nevada & Oregon Railroad Trouble.

The Nevada and Oregon laborers numbering some 44 men, have been in town two days waiting for their pay. A JOURNAL reporter had a talk with three of them last evening, and the following is their statement: From \$130 to \$200, is due each of them for labor; Manning, Bragg, Balch and Fowler held a Directors meeting yesterday and while in session, the men went to the office and asked for their money, when they were answered by one of the directors present, to go to the Company's lawyer and have a lien filed on the road and the Company would pay the charges, and for them not to go outside or they would give the business into the hands of the Company's enemies. The men called a meeting at their car last night and appointed a committee to consult a lawyer, and see what could be done in the matter. They were notified last night to vacate the car, and that no more grub would be furnished them; forty-four men were turned into the streets of Reno, without a cent to get a bed or a meals victuals; most of them being strangers without a friend or credit. If there has been \$250,000 paid the contractors as the Gazette claims, why is it that these men are turned away by a bluff in the midst of Winter? Where is Col. Moore?

Susanville Notes.

SUSANVILLE, Dec. 30th, 1881.

John Adams, the man who stole two coats from the store of Blum and Alexander was tried before Justice Blake yesterday. The jury being out a few minutes found him guilty. Justice Blake this morning sentenced him to 50 days in the county jail.

The Celestials here have been on their good behavior for some time, but at last their cussedness has shown itself. One Charley Wing now languishes in durance vile, cared for by Soaden. Gee Hem owed Wing \$2, and Wing to get even stole \$100 and some blankets from him. Justice Blake bound Wing over to await the action of the Superior Court.

Lassen has her cow boys as does all well regulated counties. Last week they made a raid on the bar room of the Milford hotel, broke up all the furniture piled in the fire place and set it on fire, and by way of amusement fired about twenty shots into the lamps and ceiling. They settled the bill of damages but not to satisfy Mr. Doyle who has commenced suit against them for \$1,500.

Elocutionary.

Mrs. M. J. Bradley, the brilliant elocutionist of San Francisco, will be at the Lake House for a few weeks. After her manifold city engagements she expects to derive much benefit in the change from ocean air to our bracing climate. Mrs. Bradley stands unrivalled as an artist, both in San Francisco and the East, besides possessing eminent ability as a teacher of elocution, as her many recommendations show. She has been connected with several of the most prominent educational institutions on the Atlantic and Pacific Coasts, and her ardent admirers and grateful pupils are to be found in every section of the Union. It is to be hoped that the lady may be induced, during her stay in Reno, to receive a few pupils that our aspiring young people, who neglect no opportunity for culture, may avail themselves of her invaluable services and experience the delight of listening to her grand renditions of the great authors and dramatists.

Musical.

Reno can now boast of one of the best musical organizations in the shape of a quadrille and brass band in the State. Prof. Kauffman the leader ranks as first class in the musical line, and is competent to conduct an institution of this kind with credit to himself and Reno. The orchestra is composed of Mr. Kauffman, clarionette and violin; Hyman Fredricks, violin; Mr. Hastings (recently from Boston), cornet; Miss May Finlayson, piano; Mr. C. F. Cook, prompter, percussion instruments and musical specialties; Mr. Roff piano, contra-bass and cornet. Their dancing music is excellent, and they endeavor to furnish the new and popular music of the day. Mr. Kauffman will give instruction on any instrument, at very reasonable terms, fitting the student in a very short time to take a place in the orchestra.

Who Received on New Years.

Owing to an oversight in yesterday's issue we failed to notice the ladies who entertained callers on Monday. A JOURNAL reporter went the rounds, and found splendid lunches spread at Mrs. Schooling's, Mrs. J. B. William's, Mrs. Shoemaker's, Mrs. Greeley's, Mrs. C. W. Jones', Mrs. M. J. Smith's, Mrs. Kinkaid's, Mrs. W. A. Walker's and Mrs. N. J. Roff's. Mrs. J. B. Williams was assisted by Miss Lila Dixon, Mrs. Shoemaker by Mrs. Osburn, Mrs. Greeley by Miss Monroe, Mrs. C. W. Jones by Mrs. M. Jones, Mrs. Kinkaid by Miss Katie Kinkaid, Mrs. Powning and Miss Gardner. Quite a number of ladies received calls on that day, but made no announcement to keep open house.

Opera Bouffe.

The Oates Opera Bouffe Company, headed by the peerless Queen of opera bouffe, Alice Oates, will appear for one night only at Nevada Theater, Saturday evening, January 14th.

Our evening cotem in referring to the bid of Jerry Schooling for furnishing supplies to the State Prison, said that he had bid 15 per cent. lower than Carson merchants. The fact is that Mr. Schooling's bid was simply 15 cents less on the whole amount of \$8,000. Our evening cotem seems to be a little loose with figures lately.

The White House.

Is one of our largest clothing establishments, and such an one as not only Reno but the State of Nevada can be proud of. Such is the extensiveness of their sales daily that the firm never has on hand what is called an "old stock," for just at present they are confined to a salesroom space which is wholly inadequate to their demands, and therefore, they are absolutely forced to order new goods, almost daily, to fill their orders. After a careful inspection of their stock of gents' and boys' clothing, gents' furnishing goods, hats and caps, boots and shoes, etc., we can truly say that we doubt if any other dealer in their line in Nevada has ever made an approach to the exhibit of the White House. The articles of Fine Custom Made Clothing kept by this firm is seldom seen in interior stores, and are kept but by a few of the larger houses in San Francisco. Some people think they cannot obtain a really good and fashionable article without sending to San Francisco, but that idea is soon dispelled after an examination of goods and prices at the White House. This establishment is admirably managed by Abraham Bros. Call upon them and satisfy yourselves that what we state is true. Their prices are lower than those of any similar establishment in the State. Do not be persuaded to buy a "Cheap John" piano, but purchase the Henry F. Miller piano, which is used by artists more than all the other makes combined.

Put it to Proor.

At a time when the community is flooded with so many unworthy devices and concoctions, it is refreshing to find one that is beneficial and pure. So conscious are the proprietors of Dr. King's New Discovery for Consumption, of the worth of their remedy, that they offer all who desire a trial bottle free of charge. This certainly would be disastrous to them did not the remedy possess the remarkable curative qualities claimed. Dr. King's New Discovery for consumption will positively cure asthma, bronchitis, stubborn coughs, colds, pithisic, quinsy, hoarseness, croup, or any affection of the throat and lungs. As you value your existence give this wonderful remedy a trial by calling on R. E. Queen, druggist, and obtaining a trial bottle free of cost, or a regular size bottle for \$1.
